According to Olmsted County Solid Waste Management Ordinance Sections 3509.05 and 3509.06, commercial haulers must apply and transmit the Olmsted County Environmental Service Charge to the individuals receiving their hauler services. The Service Charge amount is determined by multiplying the Service Charge Percentage Rate (as indicated on the Solid Waste Management Fee and Service Charge Schedule) by the Gross Receipts collected from each customer by the commercial hauler. It is the responsibility of the commercial hauler to aggregate all individual Service Charges from customers billed within any given month and remit and report them to the County.

The collection and remittance of the Service Charge should align with each customer's billing or invoicing. They should not be tied to any particular revenue recognition method the commercial hauler employs.

- ☐ Check here to confirm your company will comply with the Olmsted County Environmental Service Charge billing requirements and related collection, remittance, itemizing, reporting, and examination of records, as documented in Olmsted County Solid Waste Management Ordinance Section 3509.

OLMSTED COUNTY SOLID WASTE CREDIT ACCOUNT AND TIPPING FEES

Olmsted County's Solid Waste Credit Policy mandates that Licensed Haulers maintain a credit account for disposal charges unless they have previously had their credit account denied or revoked. In such cases, disposal charges must be paid at the time of disposal. Tipping fees will be assessed to Licensed Haulers at the moment of disposal at any County-owned solid waste disposal facility, with charges recorded on a disposal ticket.

If the scale operator erroneously encoded the tipping fee or the charged amount was incorrect, the County will rectify the disposal ticket by applying the accurate code and charge amount. Any adjustments that alter the amount owed to Olmsted County, as indicated on the disposal ticket, will be incorporated into the subsequent monthly statement for Licensed Haulers holding a credit account. For those Licensed Haulers who are cash customers, any corrections will be made within 30 days of the initial disposal ticket, and the resulting payment will adhere to the payment guidelines outlined in Olmsted County's Solid Waste Credit Policy.

A copy of the current Solid Waste Credit Policy is attached to this application.

- ☐ Check here to confirm your company understands the Olmsted County Solid Waste Credit Account payment requirements.

OLMSTED COUNTY WASTE MANAGEMENT CREDIT POLICY

PURPOSE:

It is the financial policy of the County to selectively use available capital in a way that will best serve our taxpayer's interest. We do this best by using our money to provide efficient services to the taxpayers, rather than using it to finance customer accounts receivable beyond regular terms, or accounts that are uncollectible.

To protect the taxpayer's best interest, the Board of Commissioners has adopted a general credit policy; and individual division policies where necessary. The following guidelines apply to all services provided by the Waste Management division:

Interest:

Compounding monthly interest will be charged to all accounts, excluding governmental agencies, for which a balance remains unpaid over thirty (30) calendar days at the annual rate equal to one half percent (0.5%) per month or six percent (6%) per annum. Periodically the interest rate will be reviewed to ensure that is not too high or too low.

Security:

All licensed haulers, demolition contractors, and credit customers, excluding governmental agencies, must provide security on the total of the two highest months Waste Management Fees from the previous twenty four (24) months, as calculated by the County or a minimum of one hundred dollars (\$100), whichever is greater. If prior fee data is unavailable or if a customer's Waste Management Fees have significantly changed during the year, County staff may calculate the new required amount needed to secure two months of fees. The security can be in form of a letter of credit, advance deposit, or surety bond. By November 30th of each year, evidence of the security must be sent to the Finance Office at Public Works and must be effective, without qualifications, at a minimum, January 1 thru December 31 of the following year. Failure to supply evidence of the security by November 30th will result in the loss of credit on December 1st and all unpaid fees will be due by December 15th or the security will be invoked to collect on the unpaid balance.

Collection of Accounts:

- A) The account is overdue thirty five (35) calendar days after the end of month during which the service was provided:
 - 1) Customers that have gone overdue more than three (3) consecutive times may no longer receive credit privileges from the County without the approval of the Chief Financial Officer.
 - 2) A reminder letter, email, or phone call is used and documented.
